2. Overview

2.1 Device

- SIM card should have access to GPRS.
- Before SIM card installation, ensure external power is disconnected and battery switch is off.

3. SIM card

- Installation: Ensure that the device is in a service area and the SIM card is inserted.
- Troubleshooting: If the device is unable to locate the SIM card, check if the SIM card is inserted properly.

4. Wiring Instruction

- Power on: Open top cover and turn battery switch to ON. Terminal starts working.
- Power off: Disconnect external power and turn battery switch to OFF. Power LED is off and charging stop after device power off.

5. Installation

- Please install the device under the guidance of professional personnel.
- Under front windshield: When SIM card inserted, turn battery switch to ON.

6. Main Functions

- Power on / Off: Move to service area.
- Speed: Monitor the speed of the vehicle.
- SOS: Activate emergency mode.
- Mileage: Record the distance traveled.
- GPS positioning: Provide accurate location information.

7. Faults

- Fault Description: If the vehicle stops working, check the command again.
- No response: Command is not received by the terminal.
- Insufficient power: Ensure that the battery is charged.

8. Frequently Used Command List

- Command: SOS#
- Command: RESET#
- Command: SMS command: SOS, D, phone number 1, phone number 2, phone number 3#
