

GV20 3G GPS Tracker

GV20 is a fully-featured, highly competitive and cost-effective 3G GPS tracker developed for a vehicle, motor, and bus tracking. It offers you crystal clear real-time tracking details, including location, route, flashback, etc., even in a tough environment. It supports remote fuel/power cutoff and also provides ignition status. Wherever you go, it's instant alert notifications allow you to react accordingly and immediately.

- 3G WCDMA & GSM Network Support
- ACC ACC Detection - Ignition Status
- 3G GPS & LBS Positioning
- ACC Remote Cut-Off (Fuel/Power)
- ACC Tamper Alert
- ACC IP65 Dust & Water Resistance
- ACC 9-90V Rated Voltage
- ACC Vehicle Battery Protection

Market Applications

Parameters	
Communication system	WCDMA/GSM
Frequency	WCDMA 850/900/1900/2100MHz GSM 850/900/1800/1900 MHz
GPS chipset	Ublox
LED indicator	GPS (blue), GSM(green), power (red)
Battery	400mAh/3.7V
Standby current	5mA/12VDC
Working voltage/current	9-90VDC/31mA(12VDC), 19mA(24VDC)
Operating temperature	-20°C~+70°C
Dimension	88*45*13mm
Weight	60g
