PL200
Smart 4G Personal Tracker

The PL200 is a small and light 4G tracker for mobile workforce management. Its IP65 waterproof case makes it suitable for carrying around in almost all weather. Automatically switching between step-count-based mode and regular GPS mode allows the device to operate for up to five days on a single charge. Furthermore, the PL200's two-way voice calls, whitelist settings and step counter make it an ideal solution for managing lone workers like sanitation workers, street cleaners and security guards.

Two-Way Communication
Enable workers to make speed-dials to two important contacts with this device.

LTE & GSM Network
Stable communication via IoT-specific 4G LTE networks with 2G fallback.

GPS & BDS & GLONASS Positioning
A synergy of multiple positioning systems ensures the location to be accurately displayed on the cloud platform.

Step Counter
A step can wake up to device to continuously count the steps taken and upload the data to the cloud platform.

Multiple Working Modes
Configurable working modes according to your actual demands.

Panic Button
Enable workers to ask for immediate help with a single press.

Remote Listen-in
Inconspicuous mic allows for remote audio monitoring of the environment around the device.

Multiple Alerts
Instant alerts for specific events such as device power-on or shutdown, low battery, SIM card change, etc.
